MAR 22 2016

Mr. Paul Rosasco
Engineering Management Support, Inc.
7220 West Jefferson Avenue, Suite 406
Lakewood, Colorado 80235

Dear Mr. Rosasco:

The U.S. Environmental Protection Agency has reviewed the revised "Abbreviated Work Plan for a Remedial Investigation Addendum and Final Feasibility Study for OU-1 of the West Lake Landfill," as submitted on March 14, 2016. Based on our review, the EPA's additional comments submitted on March 7, 2016, have been addressed within the revised document.

Please note that the current Figure 2 has a minor error that warrants correction as similarly identified in a concurrent review of the draft "Phase I Comprehensive Report" and subsequent comments provided by the EPA on March 14, 2016.

The EPA is conditionally approving the RI/FS Work Plan pending receipt of the revised Figure 2. Please provide the EPA with a revised document that incorporates the identified figure 2 correction within five working days of your receipt of this letter or by Thursday, March 29, 2016. If you have any questions or concerns, please contact me either by e-mail at vann.bradley@epa.gov or by phone at 913-551-7611.

Sincerely,

Bradley Vann
Remedial Project Manager
Missouri/Kansas Remedial Branch
Superfund Division
